

	MOD 01.01	REV. 00 DEL 01/01/2026
	ENVIRONMENTAL POLICY	

NUOVA GUARNIBETA S.R.L. recognizes the paramount importance of **safeguarding and protecting the environment** as a prerequisite for the existence of the industrial system in which it operates. It is committed to providing adequate resources to **prevent pollution** from its operations and **to continuously improve its environmental performance**, within the limits of available knowledge and the financial constraints imposed by sound economic management principles. To this end, the organization implements and continuously improves an Environmental Management System (EMS) in compliance with the international standard UNI EN ISO 14001:2015.

The fundamental principles on which our commitment is based are the following:

1. Compliance with applicable legal requirements and other requirements to which the organization subscribes that concern the Company's environmental aspects.
2. In-depth understanding of its context and attention to the relevant needs and expectations, i.e., the environmental requirements, of interested parties (e.g., customers, suppliers, workers, owners, public authorities).
3. Correct identification and understanding of environmental impacts and related monitoring and mitigation methods.
4. Adoption, in all relevant parts of the EMS, of a risk and opportunity analysis and management process aimed at increasing stakeholder satisfaction.
5. Promotion and active maintenance of a constant process of continuous improvement of the Company's operational performance and production structure and/or technology.
6. Implementation of all necessary measures to protect the environment and prevent air, water, and soil pollution.
7. Improved waste management activities, such as collection and control, and disposal, with a view to continuously improving our processes and environmental performance.
8. Control, monitor, and reduce the consumption of raw materials and natural resources to avoid waste, using the best available technologies for environmental protection.
9. Engagement and adequate training of personnel on the environmental aspects of operations.
10. Definition and documented monitoring of environmental objectives and targets to be achieved.
11. Ensuring the adoption of appropriate environmental practices by suppliers and companies working on behalf of the organization.
12. Creation and maintenance of adequate and efficient internal and external information channels.

NUOVA GUARNIBETA S.R.L. ensures that this ENVIRONMENTAL POLICY is communicated to all employees during training sessions and by posting it on company noticeboards, also for the benefit of external companies operating on its production site. The principles of this document are also published on the company website <https://www.nuovaguarnibeta.it>. This ENVIRONMENTAL POLICY is the basis of the company's entire EMS.
